EXAMINER'S AMENDMENT

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's amendment filed on 12 January 2004 has been entered.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Michael Hynes on 02 February 2004. The amendment cancels non-elected claims and eliminates the requirement that the protrusion be "supported on" a "continuous entirely planar, circumferential joint surface", which the examiner contended was not sufficiently support in the originally filed specification, particularly in combination with the other requirements of claim 13.

The application has been amended as follows:

Claims 9 and 10 were canceled.

In claim 11, line 14, "supporting" was changed to - - adjacent - -.

Art Unit: 1723

In claim 11, line 21, "supported on" was changed to - - adjacent - -.

In claim 12, line 7, "supporting" was changed to - - and - -.

In claim 12, line 8, "from the continuous joint locations (20a, 20b) of" was changed to
- - being located on the - -.
